EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's Attorney, Jeffrey C. Hood on 2/4/2005.

The application has been amended as follows:

Claims 1, 4-15, 24, and 27-34 have been cancelled.

Allowable Subject Matter

Claims 16 and 19-23 are allowed.

The following is an examiner's statement of reasons for allowance: Concerning claim 16, the prior art teaches receiving user input specifying a data source, specifically via a block diagram comprising a plurality of connected nodes and which represents the functionality of a graphical program. The prior art additionally teaches automatically displaying a GUI element in a graphical user interface, based on the user-specified data source, whereby the GUI element is automatically configured to receive and display data from the data source during execution of the program. The prior art teaches that such a data source may be a device external to the computer executing the program, and so the specified data source itself is considered to be external to the graphical program. However, the prior art does not teach or suggest implementing such a block diagram, or automatically displaying

a GUI element in response to user input received via such a block diagram, whereby the data source is not represented by a node in the block diagram, as is recited in claim 16. As claims each of 19-23 depend on claim 16, and include all of the limitations of claim 16, claims 19-23 are considered allowable for the reasons in which claim 16 is considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
